ICAO Circular 74-AN/64

LICENSING PRACTICES OF STATES

CHAPTER 1 - INTRODUCTION

1. The purpose of this Circular is to consolidate within the publication certain elements related to the licensing practices adopted by the Contracting States of ICAO.

2. The need to make available information on licensing practices had been recognized by the Personnel Licensing/Medical Meeting held in Montreal in 1961. The Meeting adopted the following recommendation:-

Recommendation No. 8/3 - LICENSING PRACTICES OF STATES

That to enable States to proceed more rapidly in their attempts to recognize more fully than is possible at present the technical equivalence of each others' licences and, to the extent deemed practical, to apply a more liberal policy than is presently possible for many States, the Organization collect and prepare information on standards of licensing in States and make available this information to States.

This Recommendation was approved by the Council. Subsequently, a Questionnaire was circulated to all Contracting States, and the replies received are reproduced in Chapter 2 of this Circular.

3. The Personnel Licensing Training Practices/Medical Divisional Meeting of 1970 confirmed the continuing requirement for the Circular and adopted the following recommendations:-

Recommendation No. 4/2 - ACCEPTANCE OF QUALIFICATIONS OF HOLDERS OF LICENCES

That ICAO continue to urge Contracting States to explore methods whereby they can accept the qualifications of holders of licences issued by other Contracting States.

Recommendation No. 4/3 - UPDATING OF ICAO DOCUMENTS RELATING TO LICENSING

That, in order to achieve the objectives of Recommendation 4/2, the relevant ICAO Circulars, Manuals and Guidance Material on matters relating to licensing be kept up to date.

4. The consolidated tables, arranged by types of licences, forming Chapter 3 of this Circular are presented in the belief that they will facilitate comparisons and studies on the licensing practices that are most frequently used.

5. Further general guidance on licensing practices is given in the ICAO Manual - Licensing Practices and Procedures (Doc 9057 - AN/897).

USAGES DES ETATS EN MATIERE DE DELIVRANCE DES LICENCES

CHAPITRE 1 - INTRODUCTION

1. L'objet de la présente circulaire est de réunir en une seule publication des éléments relatifs aux usages des Etats contractants de l'OACI en matière de délivrance des licences.

2. La nécessité de diffuser des renseignements sur les usages en matière de délivrance des licences a été reconnue par la Division des Licences du personnel/Médecine aéronautique, qui s'est réunie à Montréal en 1961. La Division a adopté la recommandation ci-après:

Recommandation n° 8/3 - USAGES NATIONAUX EN MATIERE DE DELIVRANCE DES LICENCES

Pour permettre aux Etats d'avancer plus rapidement dans la voie d'une reconnaissance réciproque plus complète, actuellement impossible, de l'équivalence technique de leurs licences, et, pour autant qu'une telle mesure soit jugée réalisable, d'appliquer une politique plus libérale que de nombreux Etats jugent encore impossible, il est recommandé que l'Organisation recueille et compile des renseignements sur les normes nationales de délivrance de licences, et qu'elle mette ces renseignements à la disposition des Etats.

Cette recommandation a été approuvée par le Conseil. Par la suite, un questionnaire a été adressé à tous les Etats contractants et les réponses qui ont été reçues figurent au chapitre 2 de la présente circulaire.

3. La Réunion Licences et Formation du personnel/Médecine aéronautique à l'échelon division (1970) a confirmé que la circulaire répondait encore à un besoin et elle a formulé les recommandations ci-après:

Recommandation 4/2 - ACCEPTATION DES QUALIFICATIONS DES TITULAIRES DE LICENCES

Il est recommandé que l'OACI continue d'inviter instamment les Etats contractants à étudier les méthodes qui leur permettraient d'accepter les qualifications des titulaires de licences délivrées par d'autres Etats contractants.

Recommandation 4/3 - MISE A JOUR DES DOCUMENTS DE L'OACI
RELATIFS A LA DELIVRANCE DES LICENCES

Il est recommandé que, pour que les objectifs de la Recommandation 4/2 puissent être atteints, les circulaires, manuels et éléments indicatifs pertinents de l'OACI portant sur des questions relatives à la délivrance des licences soient tenus à jour.

4. Les tableaux récapitulatifs classés selon les types de licences, qui constituent le chapitre 3 de la présente circulaire, devraient faciliter la comparaison et l'étude des usages les plus répandus en matière de délivrance des licences.

5. D'autres indications sur les usages en matière de délivrance des licences figurent dans le "Manuel sur la délivrance des licences - Usages et modalités".
(Doc 9057-AN/897) publié par l'OACI.

PRACTICA SEGUIDA POR LOS ESTADOS
PARA EL OTORGAMIENTO DE LICENCIAS

CAPITULO 1 - INTRODUCCION

1. El objeto de esta circular es reunir en una sola publicación ciertos elementos relacionados con los métodos de otorgamiento de licencias adoptados por los Estados Contratantes de la OACI.

2. La Conferencia de Licencias al Personal y Medicina Aeronáutica, celebrada en 1961 en Montreal, reconoció la necesidad de hacer asequible la información relativa a los métodos de otorgamiento de licencias, al adoptar la recomendación siguiente:

Recomendación Núm. 8/3 - METODO PARA EL OTORGAMIENTO DE
LICENCIAS EN LOS ESTADOS

Que para que los Estados puedan proseguir más rápidamente sus tentativas para reconocer más plenamente de lo que es posible en la actualidad la equivalencia técnica de las licencias entre sí y, en la medida en que se considere práctico, aplicar un criterio más liberal del que es actualmente posible para muchos Estados, la Organización recopile y prepare información sobre normas de otorgamiento de licencias en los Estados y ponga dicha información a disposición de los Estados

Esta recomendación fue aprobada por el Consejo. Subsiguientemente se distribuyó a todos los Estados un cuestionario y las respuestas recibidas se reproducen en el Capítulo 2 de esta circular.

3. La Conferencia Departamental de Licencias al Personal, Métodos de Instrucción y Medicina Aeronáutica de 1970 confirmó que la circular seguía siendo necesaria y adoptó las siguientes recomendaciones:

Recomendación 4/2 - ACEPTACION DE LAS CALIFICACIONES DE
LOS TITULARES DE LICENCIAS

Que la OACI continúe instando a los Estados contratantes a estudiar métodos mediante los cuales puedan aceptar las calificaciones de los titulares de licencias expedidas por otros Estados contratantes.

Recomendación 4/3 - ACTUALIZACION DE LOS DOCUMENTOS DE LA OACI
RELATIVOS A LICENCIAS

Que, con objeto de cumplir con los objetivos de la Recomendación 4/2, se mantengan al día los manuales, circulares y textos de orientación de la OACI relativos a licencias.

4. Las tablas reunidas, ordenadas según el tipo de licencia, que forman el Capítulo 3 de esta circular, se presentan con la idea de facilitar comparaciones y estudios sobre los métodos de otorgamiento de licencias más frecuentemente empleados.

5. El Manual de Instrucción de la OACI - Métodos y procedimientos para el otorgamiento de licencias (Doc 9057-AN/857) contiene más texto de orientación general sobre los métodos de otorgamiento de licencias.
