FOREWORD

Parts 1 and 2 of this document detail the aeronautical information services provided by States and are published in furtherance of Recommendation 27 of the First Session of the Aeronautical Information Services Division.

Part 1 provides essential data concerning the type of aeronautical information available from various States and how it may be obtained. The tabulations are supplemented by a map indicating the geographical area of responsibility of each service. Part 2 shows the current exchange of NOTAM between NOTAM offices.

On page 0-5, there appears a statement of the requirements of ICAO (both Headquarters and Regional Offices) for aeronautical information published by States. Documents equivalent to NOTAM, Aeronautical Information Publications or Aeronautical Information Circulars should be supplied in the same quantity as indicated for the equivalent document.

This document also contains, in Part 3, a listing of international airports, including those designated under Article 10 of the Convention on International Civil Aviation.

All tabulations are arranged alphabetically by State according to English spelling. For quick reference purposes an index of the name under which the information appears is provided.

Any errors, omissions or discrepancies noticed in this document should be brought to the attention of:

AVANT-PROPOS

Les Parties 1 et 2 du présent document fournissent des renseignements détaillés sur les services d'information aéronautique assurés par les États; leur publication fait suite à la Recommandation 27 de la Première Session de la Division des services d'information aéronautique.

La Partie 1 de ce document fournit des données essentielles sur le type de renseignements aéronautiques publiés par les États et sur la façon de se les procurer. Les tableaux sont complétés par une carte indiquant les zones de responsabilité de chaque service. La Partie 2 montre la situation actuelle des échanges de NOTAM entre les bureaux NOTAM.

Les informations aéronautiques publiées par les États et nécessaires à l'OACI sont indiquées à la page 0-5 (pour le siège et les bureaux régionaux). Les documents équivalant à des NOTAM, à des publications d'information aéronautique ou à des circulaires d'information aéronautique devraient être fournis dans les mêmes quantités que celles indiquées pour les documents correspondants.

Le document contient également, à la Partie 3, une liste des aéroports internationaux, y compris ceux désignés en vertu de l'article 10 de la Convention relative à l'aviation civile internationale.

Dans les tableaux les renseignements sont groupés par pays, et ceux-ci sont rangés dans l'ordre alphabétique anglais. Pour faciliter la consultation du document, un index permet de déterminer le nom sous lequel figurent les renseignements.

Toute erreur, omission ou anomalie relevée dans le présent document devrait être portée à l'attention du :

PREÁMBULO

En las Partes 1 y 2 de este documento se detallan los servicios de información aeronáutica suministrados por los Estados; ambas se publican en cumplimiento de la Recomendación 27 de la Primera Conferencia del Departamento de Servicios de Información Aeronáutica.

En la Parte 1 se proporcionan datos esenciales con respecto al tipo de información aeronáutica disponible de los diversos Estados y a la forma de obtenerla. Las tablas se complementan con un mapa en el que se indica la zona geográfica de la que es responsable cada servicio. En la Parte 2 se indica el intercambio actual de mensajes NOTAM entre las oficinas NOTAM.

En la página 0-5 se indica que la OACI (sede central y oficinas regionales) necesita estar al corriente de la información aeronáutica publicada por los Estados. Los documentos equivalentes a NOTAM, publicaciones de información aeronáutica o circulares de información aeronáutica, deberían suministrarse en la misma cantidad indicada respecto al documento equivalente.

Este documento contiene también, en la Parte 3, una lista de los aeropuertos internacionales, incluidos los designados de acuerdo con el Artículo 10 del Convenio de Aviación Civil Internacional.

Todas las tablas se han ordenado alfabéticamente por países según la ortografía inglesa. Para facilitar la consulta hay un índice de los nombres bajo los cuales se facilita información.

Todos los errores, omisiones y discrepancias que se observen en este documento deberían señalarse al:

ПРЕДИСЛОВИЕ

В частях 1 и 2 настоящего документа дается подробное описание аэронавигационного информационного обслуживания, предоставляемого государствами, и они публикуются во исполнение рекомендации 27 первой сессии Специализированного совещания по службам аэронавигационной информации.

В части 1 приводятся необходимые данные о виде аэронавигационной информации, которая может поступать от различных государств, и о путях ее получения. Имеющиеся таблицы сопровождаются картой, в которой указан географический район ответственности каждой службы. В части 2 представлена информация о существующем порядке обмена сообщениями NOTAM между органами NOTAM.

На странице 0-5 приводится текст требований ИКАО, предъявляемых (в рамках Штаб-квартиры и региональных бюро) к изданию государствами аэронавигационной информации. Документы, аналогичные сообщениям NOTAM, сборникам аэронавигационной информации или циркулярам аэронавигационной информации, должны предоставляться в таком же количестве, которое указывается в отношении такого аналогичного документа.

В части 3 настоящего документа также представлен перечень международных аэропортов, включая аэропорты, указываемые в соответствии со статьей 10 Конвенции о международной гражданской авиации.

Во всех таблицах государства указаны в алфавитном порядке в соответствии с английским алфавитом. Для удобства пользования документом приводится указатель названия, к которому относится соответствующая информация.

PART 3 — INTERNATIONAL AIRPORTS
PARTIE 3 — AÉROPORTS INTERNATIONAUX
PARTE 3 — AEROPUERTOS INTERNACIONALES
ЧАСТ 3 — МЕЖДУНАРОДНЫЕ АЭРОПОРТЫ

EXPLANATION OF THE TABLE

The tabulation lists international airports, together with a brief indication of the type of traffic accepted at each airport and the clearances provided. ("International airport: any airport designated by the Contracting State in whose territory it is situated as an airport of entry and departure for international air traffic, where the formalities incident to customs, immigration, public health, animal and plant quarantine and similar procedures are carried out." (Annex 9)). Most of the information has been obtained from the Aeronautical Information Publications (AIPs) produced by States in accordance with Annex 15, 4.1.1 and Appendix 1, Subsection AD 1.3. The AIP should be consulted in the planning of flight operations.

EXPLICACIÓN DE LA TABLA

En la tabla figuran los aeropuertos internacionales, junto con una breve indicación de tipo de tránsito aceptado en cada aeropuerto y los permisos que en el mismo se otorgan. [“Aeropuerto internacional: todo aeropuerto designado por el Estado contratante en cuyo territorio está situado, como puerto de entrada o salida para el tráfico aéreo internacional, donde se llevan a cabo los trámites de aduanas, inmigración, sanidad pública, reglamentación veterinaria y fitosanitaria, y procedimientos similares”. (Anexo 9)]. La mayor parte de esta información ha sido obtenida de las Publicaciones de información aeronáutica (AIP) editadas por los Estados de acuerdo con el Anexo 15, 4.1.1 y el Apéndice 1, Subsección AD 1.3, las cuales deberían consultarse al planear las operaciones de vuelo.

Los aeropuertos que figuran en la lista se han designado de acuerdo con el Artículo 10 del Convenio sobre Aviación Civil Internacional. (“Artículo 10: excepto en el caso en que, de acuerdo con lo dispuesto en el presente Convenio o en una autorización especial, se permita a las aeronaves cruzar el territorio de un Estado contratante sin aterrizar, toda aeronave que penetre en el territorio de un Estado contratante deberá, si los reglamentos de tal Estado así lo exigen, aterrizar en el aeropuerto designado por tal Estado para fines de inspección de aduanas y otras formalidades. Al salir del territorio de un Estado contratante, toda aeronave deberá partir de un aeropuerto aduanero designado de igual manera. Las características de todos los aeropuertos aduaneros deberán ser publicadas por el Estado y transmitidas a la Organización de Aviación Civil Internacional, creada en virtud de lo dispuesto en la Parte II del presente Convenio, la cual las comunicará a todos los demás Estados contratantes”).
